Re: Ceasing to operate outdoor boilers

In the matter of an **Order** made pursuant to Section 63 of the *Health Act* of British Columbia, Dr. Digby Horne, Medical Health Officer, Interior Health Authority, Kamloops, BC has reason to believe and do believe that there is, was or may be a "health hazard" caused by the operation of outdoor boilers located at the above address which generate smoke.

This belief is based on the following:

1. Acute symptoms of neighbors consistent with known health effects of woodsmoke (e.g. difficulty breathing, airway and eye irritation, headache and nausea).
2. Secondary health symptoms related to actions taken to avoid smoke such as moving inside and/or closing windows (e.g. excessive heat, disturbed sleep, decreased exercise and anxiety about potential health effects and need to relocate).

Therefore, I hereby order you, pursuant to Section 63 of the *Health Act* that within one week of receipt of this **Order** you:

cease operation of the outdoor boilers at the above address, regardless of purpose.
